QuickBooks QuickCheckup

You go to the doctor, right, for a yearly checkup? Your QuickBooks file could use the same TLC. Think it's running slow? Your reports are off? Our QuickBooks QuickCheckup looks at:

- Your bank account and if it's reconciled correctly
- Any unapplied balances or negative amounts in Accounts Receivable and Accounts Payable
- The closing date and password in your QuickBooks file and if they are set correctly
- The appropriateness of transactions in Sales, Cost of Sales and Payroll accounts
- Your balance sheet for negative assets or liabilities
- Your equity accounts and balances for appropriateness based on the type of entity

Let us get you working in a healthy QuickBooks file.
